

GLOBAL INVASIVE SPECIES DATABASE

EICAT profile: Sclerophrys gutturalis

DD (Data Deficient)Sclerophrys gutturalis

Date assessed 2020-12-10 2021 Year published DD (Data Deficient) Eicat category **Justification for EICAT** assessment Predation by S. gutturalis has not been recorded through either observational or experimental studies. Rather the potential predation of S. gutturalis on native invertebrates and subsequent observed decline in populations has been speculated with no real data to support these speculations. **Confidence rating** Predation Mechanism(s) of maximum impact Countries of most severe Mauritius impact **Description of impact** Assessor John Measey; Carla Wagener Contributors Sabrina Kumschick; Mohlamatsane Mokhatla; James Baxter-Gilbert; Corey Thorp; Alexander D. Rebelo; Giovanni Vimercati; Sarah J. Davies; F. André de Villiers; Nitya Prakash Mohanty; Khensani Nkuna **Reviewers** John Measey; Carla Wagener. (2025). Sclerophrys gutturalis . <u>IUCN Environmental Impact Classification</u> **Recommended citation** for Alien Taxa (EICAT).
