

DD (Data Deficient) *Strongylopus grayii*

|   |  |
|---|--|
| <b>Date assessed</b>                      | 2021   |
| <b>Year published</b>                     | 2021   |
| <b>Eicat category</b>                     | DD (Data Deficient)  |
| <b>Justification for EICAT assessment</b> | Anecdotal evidence suggests that the species was found to provide a food source for another alien and native species. However, no reports were found on the negative impact on native species.     |
| <b>Confidence rating</b>                  | Indirect impacts through interactions with other species   |
| <b>Mechanism(s) of maximum impact</b>     | Indirect impacts through interactions with other species   |
| <b>Countries of most severe impact</b>    | Saint Helena   |
| <b>Description of impact</b>              |  |
| <b>Assessor</b>                           | Carla Wagener; John Measey   |
